Much

The Honorable Clifford P. Case
Vice Chairman, Subcommittee on
Collection, Production and Quality
Senate Select Committee on Intelligence

Dear Senator Case:

I read with interest your article in the New York Times
of 23 January.

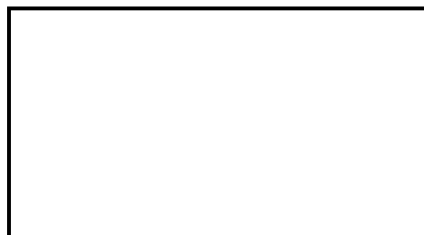

As you know, we at CIA have taken quite seriously the
charge that our intelligence analyses must be improved. We
have a number of initiatives underway that address problems
specifically mentioned in your article. I look forward to
consulting with the Committee on some of these initiatives,
and I hope that you will be able to help us if we need your
assistance.

With respect specifically to your comments about the
1973 oil embargo, I am sending you a copy of an internal CIA
review directed at the findings in the Committee's Report.
In some important respects it challenges the Report, while
in others it is in agreement. I hope that you will find it
useful as the Committee investigates additional Agency analyses.

Yours sincerely,

15/
STANSFIELD TURNER
